

M-14

25 June 1962

*Contract Sec*

SUBJECT: Contract AN-1922

TO: Contracting Officer

This is to certify that the contractor has satisfactorily completed and furnished to the government preliminary design data and technical management information on the Inertial Platform, Missile Guidance Computers, and Armament System Integration in accordance with terms and delivery dates specified by contract.

The final report consisted of eleven (11) volumes of data based on the 90 day study performed by the contractor. Mockup units were constructed and delivered on schedule; therefore, it is requested that final payment be made to Minneapolis-Honeywell covering the period of performance as set forth in subject contract.
